# Develop specialised skills and gain understanding of massage techniques and blending aromatherapy oils to take your career in beauty to the next level.

## Develop the skills to begin a career in the beauty industry, specialising in BODY and AROMATHERAPY MASSAGES.

Aromatherapy centres around holistic medicine that utilizes extracts from natural plants for health and wellbeing.

Many massage therapists apply aromatic essential oils therapeutically combined with their massage techniques to improve their client's physical and emotional health.

Aromatherapy works by stimulating receptors in the nose responsible for smell, sending messages by olfactory cells to the part of the brain that controls the drive for survival, emotions, and instinct called the limbic

system. The olfactory cells recognize scents as specific aromatic molecules that fit into receptors on these cells. Scientists believe that these nerve signals' action causes powerful mood changes in response to particular smells.

Massage therapy, combined with essential oils, candles and incense, stimulates positive emotions and relaxation, equipping clients with coping mechanisms for many other health issues.

An aromatherapy massage is a unique way to help clients achieve better health and wellbeing. Learning aromatherapy massage will add a new dimension to your beauty menu of skills and healing work.

Individuals embrace a range of well-developed technical and customer

service skills where accountability and intelligence is required. Therapists are responsible for their own productivities.

This includes being highly skilled in interacting with customers, reception areas, client consultations and care, beauty and cosmetic product knowhow's, product visual merchandising, whilst providing a range of sophisticated beauty services including: knowledge of skin and body structures and functions that promote secure skills in body massage and stone therapy massage.

You will also expand skills in innovative make-up applications and designs, face and body waxing, the latest on manicures and pedicures, lash and brow trends, treatments and designs, cosmetic body tanning, whilst maintaining the health and wellbeing of your environments and promoting healthy nutritional options to your clients.

Before you start training, you may need help to brush up basic skills including reading, writing or numeracy. If you need to you can access fee free foundation skills bridging units or courses. Your training provider will let you know about foundation skills courses if you need them.

## Bridging Units

To successfully complete your course, you may need additional learning. Bridging units assist covering gaps in your existing knowledge or skills to make sure you don't fall behind. If you need to you can study up to five subsidised bridging units.

## National Skill Sets and Local Skill Sets

National skill sets are short courses made up of one or more units of competency from a training package that are designed to deliver specific technical skills.

Local skill sets are specifically designed as introductory training pathways that help students to find out more about an industry before starting a training course.

There is currently no limit on how many national skill sets or local skill sets an eligible student can access.
