But where to start?

There are many skin treatments available whether it be laser beauty treatments, creams, LED sessions, hydrafacials, chemical peels, IPL photo rejuvenation, serums and masks, treatments to fight melasma, hyperpigmentation, acne-prone skin, and aging to name a few.

The introduction to skincare and facials will give you all the information you need to understand the skin and body commencing with the facial, how to care, how to heal and how to repair our clients skin. You will understand everything from client consultation, skin analysis, cleansing, toning, mask application, extraction and moisturising.
